## 1 BACKGROUND

Reference is made to the Company Presentation attached as Schedule A hereto.

## 2 THE PROPOSAL

The Issuer has approached the Bond Trustee in accordance with Clause 16.2.1 of each of the Bond Agreements, and requested that Bondholders' Meetings be held to consider the amendments to the terms and conditions for the Bond Issues as contemplated by the Restructuring, as defined and further described in the restructuring term sheet attached hereto as Schedule B (the "**Restructuring Term Sheet**" and which includes appendices thereto) (and which expression, for the sake of clarity, covers all the transactions and actions described therein, including, but not limited to, the Merger (as defined in the Restructuring Term Sheet)).

Based on the above, the Issuer proposes that the Bondholders of each of the Bond Issues resolve the following (the "**Proposal**"):

- (i) Approve that the application of the financial covenants described in paragraphs (c) (*Market Adjusted Equity Ratio*) and (e) (*Minimum Value Ratio*) of clause 13.4 (*Special covenants*) in the Bond Agreement for REM04PRO and clause 13.5 (*Preservation of Equity and Financial Covenants*) in the Bond Agreement for REM05 in each case are waived (and with effect for any breach thereof prior to the date hereof) for the period ending on the earlier of (a) the occurrence of the Effective Date (as defined in the Restructuring Term Sheet) and (b) 31 December 2016.

- (ii) Approve the Restructuring on the terms described in the Restructuring Term Sheet, authorise and instruct the Bond Trustee to take such steps on behalf of the Bondholders as may be necessary or desirable in connection with the implementation of the Restructuring, including without limitation to (a) prepare, finalise and enter into the necessary amendment agreements and other documentation deemed appropriate in connection with documenting the decisions made by the Bondholders' Meeting according to this summons, including the documentation and agreements relating to the equitisation of any Bonds to new shares in the Issuer (including subscribing for such shares) as set out therein and the Merger and any amendments to be made in any documents or agreements to reflect or incorporate the Merger, (c) for and on behalf of the Bondholders, take such further actions and negotiate, agree, enter into, sign and execute such agreements and documents that are required to complete and give effect to the Proposal and the transactions contemplated thereby, including the granting of waivers, giving of instructions, consents, approvals and directions (including to the securities depositary (VPS) and account operators for the purpose of cancelling and exchanging relevant bonds, subscribing for and allocating shares and bonds and for other purposes).
- (iii) Agree that the Bond Trustee may consent and agree to further amendments of the Restructuring and the terms in the Restructuring Term Sheet where such amendments (a) are of minor or technical nature, (b) are otherwise consistent with the principles of the Restructuring, and (c) in the opinion of the Bond Trustee do not have a Material Adverse Effect on the rights and interests of the Bondholders.
- (iv) Agree that the Bond Trustee may exercise (or refuse to exercise) any discretion, consent or approval required or contemplated in the exercise (or non-exercise) of any such discretion which is connected with the matters referred to in this summons (including without limitation waive any time periods or deadlines).
- (v) Waive any breaches of clauses in the Bond Agreements that are reasonably necessary in order to implement and complete the Restructuring.

Implementation of the Proposal in each of the Bond Issues shall be subject to approval of the Proposal by the required majorities of Bondholders in all the Bond Issues as well as the other conditions set out in the Restructuring Term Sheet

## Overview of the restructuring proposal

- Rem Offshore ASA (“Rem Offshore” or the “Company”) has for an extended period of time been in negotiations with its banks, largest bondholders and stakeholders to agree on an overall refinancing plan to strengthen the Company’s balance sheet and liquidity position going forward (the “Restructuring”).
- Based on this, the Company has agreed in-principle on the following main principles for a Restructuring with its largest stakeholders, major bondholders, and banks:
  - NOK 150m in new equity through a private placement to the largest shareholder
  - Conversion of NOK 513.5m in REM 04 and 05 into shares in Rem Offshore in consideration for 40% ownership (fully diluted). NOK 276.5m in remaining bonds to be exchanged into a new bond (the “New 2<sup>nd</sup> lien Bond Issue”) (NOK 60m in bonds owned by the Company to be cancelled)
  - NOK 60m of proceeds from the new equity to be used to carry out a buy-back of the New 2<sup>nd</sup> Lien Bond in a reverse Dutch auction
  - Amortisation reduction on all bank facilities of 88% on average for 3.5 years from second half of 2016 to the end of 2019, with a positive liquidity effect of NOK 1.3 billion. All bank maturities will be extended by 42 months in addition to amended financial covenants
  - The existing newbuilding contract with Vard will be cancelled in consideration for an ownership share of 4% in Rem Offshore (fully diluted)
- The transactions are combined expected to improve the Company’s liquidity by around NOK 3.6 billion\* over a 3.5 year period, and reduce net interest bearing debt by around NOK 900 million
- Following completing of the Restructuring, Rem Offshore will have a significantly improved financial position, and the Company’s young fleet of modern, well equipped subsea and PSV’s makes it an attractive investment opportunity for an improving market

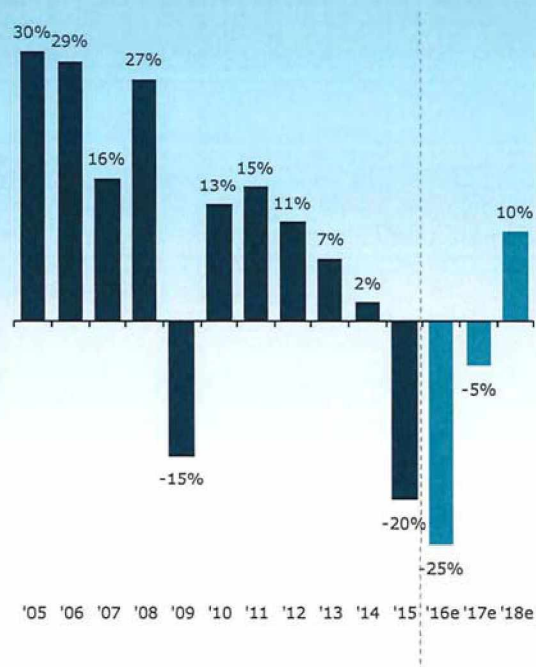

Note: \*) not including the commitment for the newbuilding from Vard

The "low case" scenario, as stated in **Appendix 2**, forms the basis for the

cash sweep, with a buffer of MNOK 48 above the forecasted cash position. When the cash position in Rem Ship is more than MNOK 48 above the forecasted "low case" cash position, all excess cash will be swept in favor of the banks in Rem Ship, but subject to a minimum cash position of MNOK 200 (equivalent to MNOK ~17 per vessel).

If and when, equity is inserted as a result of breach of an minimum value clause, such amount shall not be subject to Cash Sweep but be an extra security, which shall be used to either reduce the debt secured by that vessel or as an additional pledged amount to secure the relevant facility.

For each quarter, the cash from the cash sweep (if any) will be allocated between the facilities:

- 50% based on the relative EBITDA contribution of the relevant vessel for the last twelve months period; and
- 50% based on the relative original amortisation profile.

Total amortisation, including the cash sweep, will be capped at the original and aggregated amortisation for the Restructuring Period.

#### Subsidiaries, excl. Rem Ship:

The cash sweep will be effectuated from 1 January 2017 and calculated quarterly thereafter. Swept cash will be allocated to a restricted and pledged account and distributed annually. The "low case" scenario, as stated in **Appendix 2**, forms the basis to determine the cash sweep in all remaining subsidiaries and is based on the same principles as for Rem Ship.

If the actual cash position is more than MNOK 4 above the "low case" forecasted cash position after recapitalisation (MNOK 8 for Rem Supply), all available cash will be paid as amortisation to banks.

The cash sweep will be subject to a minimum cash position in each subsidiary of MNOK 10 (MNOK 20 in Rem Supply), Total amortisation including the cash sweep, will be capped at the original and aggregated amortization for the Restructuring Period, such amounts to be set out in **Appendix 4**.

If and when, equity is inserted as a result of breach of an minimum value clause, such amount shall not be subject to Cash Sweep but be an extra security, which shall be used to either reduce the debt secured by that vessel or as an additional pledged amount to secure the relevant facility.

#### **Fixed Amortization in the Restructuring Period:**

Rem Vision 30%

Rem Ocean 30% which is to be reduced to 10% upon contract cancellation or expiry of contract  
 Rem Etive 20% which is to be reduced to 10% upon contract cancellation or expiry of contract (a contract extension or exercise of option pursuant to the base case shall not result in a reduction)  
 Rem Gambler 15%  
 Rem Ship (excl. Ocean, Gamler and Etive) 10%  
 Other vessels 0%

**Maturity Date:** Delayed maturity by 42 months.

**Interest Margin:** Unchanged

**Covenants in the Restructuring Period:**

Minimum liquidity covenants:

Rem Arctic MNOK 4  
 Rem Fortress MNOK 4  
 Rem Ship MNOK 125  
 Rem Supply MNOK 8  
 Rem Star MNOK 4  
 Rem Vision MNOK 4  
 Rem Offshore MNOK 4

Minimum value clause to be waived to and including 31 December 2017 and thereafter reinstated as follows:  
 1 January 2018 to 31 December 2019 – 100% per vessel.

If the minimum value clause for any vessel is below the above requirements for the period 1 January 2018 to 31 December 2019 (and solely for that period), only the following consequences for any breach of the minimum value clause apply:

- a) the sole remedy for the Financial Institutions financing such vessel shall be their right to demand sale of such vessel;
- b) the Company shall, upon instructions from and in accordance with the relevant Financial Institutions, sell such vessel with the consent of the Financial Institution, within 6 months after the breach;
- c) the sales proceeds shall be used to prepay the loan on such vessel(s);
- d) any shortfall from such sale demanded by the Financial Institution shall be for the account of the Financial Institutions financing such vessel;
- e) the Investor and/or the Majority Shareholder of Rem Offshore shall have the right to remedy any minimum value clause breach by paying in additional new equity to be used either as further security in respect of the relevant facility or as a downpayment on the relevant facility (thereby

- preventing a sale) within 90 days; and
- f) if the Company has not sold the relevant vessel or cured the breach within 6 months, the relevant Financial Institution has the right to:
- (i) instruct the Company to sell the relevant vessel to a nominated buyer; or
  - (ii) transfer the relevant vessel to a single purpose company and transfer the shares to the relevant Financial Institution(s) or a nominated buyer; or
  - (iii) (if in a single purpose company) accede to their share pledge over the shares in the relevant vessel owning Subsidiary (subject to approval from all Finance Institutions with interest in the vessel owned by such Subsidiary).

This Master Agreement is subject to ordinary Norwegian background law in respect of default and the consequences of default.

After Completion no termination of the Master Agreement may take place, unless the New Equity above does not take place and is registered as documented on Completion.

Should this Master Agreement become terminated due to default (after Completion only possible in respect of the then continuing obligations), then any amendment to the financial agreements made pursuant to this Master Agreement and/or the Term Sheets, shall be reversed.

## **9 OTHER MATTERS**

### **9.1 Bond**

MNOK 513.5 of the principal amount of the existing bond issues shall be converted to shares in Rem Offshore, giving an ownership share of 40% on a fully diluted basis (post money and other conversions described herein). The remaining MNOK 276.5 of the principal amount shall be exchanged into a new bond issued by Rem Offshore (the "New Bond"). All coupon payments on the existing bond issues falling due in the Restructuring Period shall be cancelled and discharged in full. All accrued coupon of the existing bond issues not due shall be cancelled and discharged in full.

MNOK 60 of the proceeds from the New Equity shall be used to buy back bonds in the New Bond in a reverse Dutch auction (see 6.1 above). The acquired New Bonds shall be cancelled immediately upon acquisition.

Rem Offshore can call the bonds of the New Bond at par (plus accrued interest) until maturity and has a share settlement option at maturity only as described in **Appendix 1**, Term Sheet (1). There shall be no put options for the bondholders except for the change of control-put which is triggered only if the Financial Institutions consent to the Investor transferring control (see 7 above).

The New Bond shall receive new additional security in the form of a first priority pledge of the shares in Rem Maritime plus a second priority mortgage in "Rem Star" (and related insurances), giving right to 50% of any net proceeds of a sale after the first priority claim has been settled (see 9.3 below), also described in **Appendix 1**, Term Sheet (1).

### **9.2 Vard**

Rem Supply has cancelled its building contract with Vard.

The cash compensation due to Vard as full and final settlement of its net claim in respect thereof shall be converted to an ownership share of 4% on a fully diluted basis (post money and other conversions described herein) in Rem Offshore as further described in **Appendix 1**, Term Sheet (2). Vard to confirm that there are no further claims toward any member of the Rem Group following the conversion of the cash compensation.

In addition Rem Offshore, Rem Supply and DNB/GIEK agrees to procure, at Completion, documentation acceptable to Vard that its guarantee towards DNB/GIEK for the Rem Server and Rem Supplier facilities has been reduced to correspond to its 26.66% ownership in Rem Supply, with a corresponding reduction in the cap. This guarantee shall only be reduced if (i) to the extent payment is made thereunder or (ii) by agreement from the Financial Institutions.

### **9.3 Rem Star**

SMN shall convert any part of the principle amount of the loan outstanding with respect to Rem Star (vessel) in excess of MNOK 90 to equity in Rem Star. Existing shareholders will be fully squeezed-

out by virtue of the resulting capital increase/reduction in share capital. The shares in Rem Star is then to be sold to Rem Offshore for a consideration of NOK 1. SMN is entitled to 50% of any net consideration in excess of the amount of the first priority claim if Rem Star (vessel) is sold within a period of 8 years following this transaction. SMN's claim shall be capped to 26.55 MNOK and be secured by a second priority mortgage over the vessel "Rem Star", such mortgage to be shared by SMN and the Bond on a 50/50 basis.(see 9.1 above). The arrangement between SMN and the New Bond expires at the same time as the Final Maturity Date (as defined in Term Sheet 1 (1) – New Bond).

## 10 GOVERNING LAW – DISPUTE RESOLUTION

This Master Agreement shall be governed by Norwegian Law.

Any dispute hereunder or under agreements contemplated hereby shall be settled by arbitration<sup>1</sup> in Oslo, by three arbitrators appointed by the disputing Parties jointly, or failing agreement on such appointment within 30 days after the first request by a Party to another Party, by the Chief Justice of Borgarting Court of Appeal. The Arbitration Act (2004) applies to all matters, and the Civil Procedure Code shall apply where the Arbitration Act does not prescribe differently. This does not, however, apply to such (part of a) dispute which must be decided by a court outside Norway, due to mandatory law, for instance in connection with foreclosure of assets.
