### **About Point Resources**

Point Resources' ambition is to become a leading, independent E&P company on the Norwegian Continental Shelf (NCS). Operations are focused on exploration, development and production activities in four proven areas on the NCS. Portfolio optimisation and M&A is an integrated part of the company's growth strategy.

Point Resources was established early 2016 following the merger of Pure E&P, Core Energy and Spike Exploration. In 2017, ExxonMobil's operated NCS portfolio was acquired and made Point Resources an operator and a strong, independent mid-sized Norwegian E&P company.

### **Vår Energi – Merger between Point Resources og Eni Norge**

On 2 July, the merger between Point Resources AS and Eni Norge AS was announced. The company name will be Vår Energi. Vår Energi will have a wide geographical coverage, from the Barents Sea to the North Sea, producing around 180,000 barrels of oil equivalent per day in 2018 from a portfolio of 17 producing oil and gas fields. The company will have reserves and resources of more than 1,250 million barrels of oil equivalent. Vår Energi will be a leading independent Norwegian Exploration & Production company. The agreement is subject to customary closing conditions and regulatory approvals, expected to be completed by year end 2018.
